

Cement

Strong and versatile panels designed for both interior and exterior applications. They offer excellent durability, moisture resistance, and a clean, modern appearance. Cement sheets provide a reliable material solution with a contemporary aesthetic.

Standard Sheet Size: 1200mm x 600mm
Standard Thickness: 20mm, 30mm, 40mm.

Applications:

- Bar tops and countertops
- Wall panels and interior cladding
- Flooring systems
- Exterior facades
- Furniture surfaces (tables, benches, shelving)
- Kitchen and bathroom worktops
- Outdoor pavers and landscaping elements

Certifications:

- Fire Resistant
- Moisture and mold resistant
- Impact durable
- Thermally stable
- UV and weather resistant for exterior use

Apparent Density (LISTED BELOW)

Water Absorption (LISTED BELOW)

Compressive Strength: 78.3 MPa

Ultimate Flexural Strength: 12.5 MPa

Density	2.0 g/cm3
Water Absorption	5.90%
