

Metal

Our premium metal sheets combine strength with a refined, contemporary look. Engineered for precision and consistency, each sheet offers superior durability, corrosion resistance, and a smooth, flawless surface. Lightweight yet robust, the material maintains its structural integrity over time, providing reliability and lasting performance.

Finishes: Antique Stainless Steel and Stainless Steel

Standard Sheet Size: 1200mm x 2400mm

Standard Thickness: 10mm, 20mm.

Applications:

- Furniture panels (cabinet doors, table tops, shelving)
